

VIDEO PRODUCTION | SOUNDTRACK | SOUND EFFECT

WE CONNECT PEOPLE AND CONTENT

HERE YOUR IMAGINATION BECOMES ART

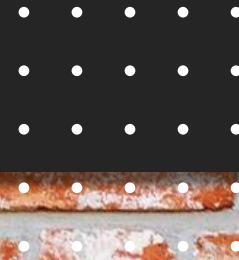

A decorative grid pattern on the left side of the page.

WHO WE ARE

We were born in Los Angeles/CA and we connect to the four corners of the world, to create content and help you to promote your brand, product and service, with creativity and originality.

We are specialists in content production for the corporate world. Ethics, thinking “outside the box”, highlighting the positives and highlighting the unexplored points. We are not satisfied with the ordinary. We are Nixart Studios!

Scripting & Video Recording

We write scripts that convey the essence of your business and enhance its qualities, using the best tools for the desired purposes. Pre-production is essential, as much as the production itself. We value every step of the process, so that you receive the best product.

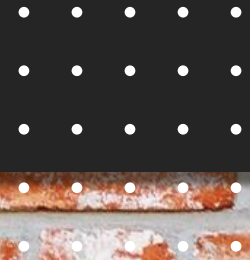

Video Editing & Color Grading

Color is life for your production! In addition to the corrections and treatments themselves, it must faithfully obey the production style. We combine this with an artistic look and exquisite editing. We finish at a high level, in the formats requested by the client, in links with pre-approval and final product. Our work has a beginning, middle and end!

Creating Animations (Motion Graphics)

In some moments, all you need is an animation that can convey the ideal message, with values in a playful way, fixing it in people's minds. In animation there are no limits to creativity, as well as distance between you and Nixart Studios. We serve online, according to your need.

Soundtracks (Composition & Recording)

We develop personalized soundtracks and sound effects, which give soul to the images, in addition to enriching compositions for your business. We consider sound as a primordial element and we work on this element in depth.

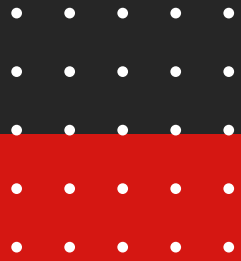

Sound Effects (Creation & Inserts)

The icing on the cake! A production will never be complete without sound effects, which make people immerse themselves in their imagination. We create and insert this important element in our products.

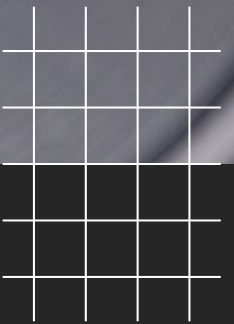

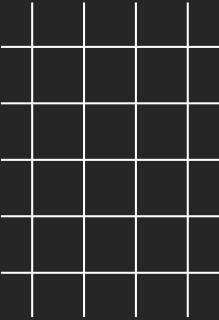

Recording of Podcasts, Voiceovers and Dubbing

Podcasts have become a very important digital marketing tool. We have a wide range of voices, from the most diverse styles, to give life to your production, animation character, dubbing and voice-over.

ARTISTIC AND STRATEGIC LOOK FOR YOUR BUSINESS

WHAT ARE THE STEPS UNTIL THE FINAL DELIVERY OF YOUR PRODUCTION?

Filling out the form

Budget and proposal

Ore-script meeting

Definition of the script

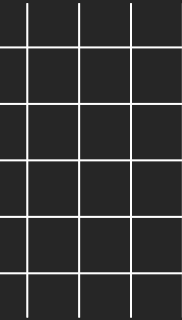

This is a brief questionnaire to collect initial information about your production and your business. It will be the basis for budget calculation and work direction.

Through the form, we guide you towards the best production and development alternatives, as well as hiring and the investment to be made.

Once the proposal is accepted, we effectively start work with the elaboration of the script. A face-to-face or online meeting is held, according to your availability.

Together with the client and based on the previous steps, the script is defined, which is formally delivered. From that moment on, we focused our efforts on production and recording.

WHAT ARE THE STEPS UNTIL THE FINAL DELIVERY OF YOUR PRODUCTION?

5

Pre-production meeting

Moment when we define the needs and measures for the day of the recording, in addition to guidelines and instructions. Pre-production is one of the most important steps in the entire process.

6

Recording

Light camera action! The big moment has arrived! Here we put all our planning and energy into practice, through our production team, equipment and, above all, an artistic and strategic look.

7

Edition & Recall

That's when art becomes reality. We carefully selected the best scenes. We make the final product available for customer approval, which may request a recall if deemed necessary.

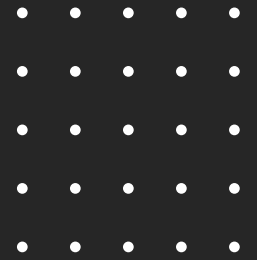

8

Final delivery

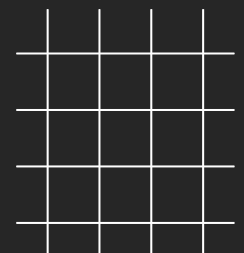

Once approved by the client, we generate the final products for download, available in links. We provide all files used in editing, such as soundtrack, sound effects, among others.

THE BEST EQUIPMENT
EXPERIENCED PROFESSIONALS

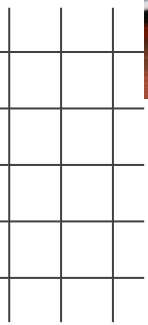

NIXART
STUDIOS

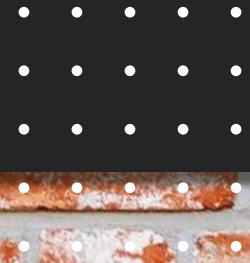

WE KNOW EXACTLY WHAT YOU WANT AND NEED

Every day we are bombarded by hundreds of audiovisual productions, especially on televisions and cell phones, through social networks. Therefore, the challenge is increasing, which becomes necessary even more technique, strategic planning, vision, experience and quality. Nixart Studios is made up of experienced people in the corporate market. In addition to audiovisual producers and designers, with extensive experience in the artistic world, we come from strategic departments of large companies and have degrees in Marketing and Business Management.
